

## Environmental Policy – Emera Energy Inc.

**Emera Energy Inc. shares in the desires of our customers, shareholders, employees, and others, to enjoy the benefits of a sound economy in a healthy environment.**

Emera Energy is committed to meeting its business objectives in a manner which is respectful and protective of the environment, and in full compliance with legal requirements and Company policy.

In delivering on this commitment, Emera Energy, an Emera Company:

- makes environment an integral part of decision making as it pursues value to shareholders;
- seeks appropriate opportunities to continually improve its environmental management systems through strong leadership of management and employee involvement;
- uses the Environmental Policy as the framework for setting and reviewing environmental objectives and targets;
- considers pollution prevention as the first option, in preference to control or clean-up where economical, feasible, practical, and achievable.
- works to provide energy to customers in a manner that utilizes resources efficiently;
- works with government in the development of technically sound and financially responsible environmental laws and regulations;
- communicates with all stakeholders on environmental performance in an open manner;
- provides appropriate environmental training and education to employees.
